R. 1300.1060 regarding fees.

3.1.2 Plan review. Plan review fees shall be as required by the State of Minnesota, or when submittal documents are required under this Ordinance or any other City Ordinance. Provided that proof of ownership shall not be required for building permits to construct, alter, repair, demolish, or move sheds, shelters, unattached garages, driveways, sidewalks or fences.

3.1.3 State Surcharge Fees. All municipal permits issued for work under the code are subject to the State surcharge fee imposed in Minn. Stat. § 16B.70, which shall be computed in accordance with that statute.

3.1.4 Valuation. The building official shall utilize the Chart of Estimated Construction Cost as annually provided by the Minnesota Department of Administration State Building Codes and Standards Division to compute building valuations for the purposes of establishing the City of Gem Lake permit fee schedules. Permit valuation shall include total value of all construction work, including materials and labor, for which the permit is being issued, such as electrical, gas, mechanical, plumbing equipment, and permanent systems. Permit fees for manufactured (mobile) homes and prefabricated structures shall be based on a valuation of on site work only.

3.1.5 Other Fees. The building official may charge separate and additional fees, in accordance with the fee schedule prescribed by ordinance of the City Council, for inspections conducted outside of normal business hours, reinspection, and other inspections or work outside of those normally required by the Building Code for which no other fee is specified. If the City requires the use of outside consultants for engineering, planning, legal, or similar services, the cost of such services shall be charged to the applicant, including administrative and overhead costs.

3.1.6 Investigation Fee. Whenever any work for which a permit is required by the code has been commenced without first obtaining said permit, a special investigation shall be made before a permit may be issued for such work. An investigation fee, in addition to the permit fee, shall be collected for the investigation equal to the amount of the permit fee required by this code.

3.1.7 Fee Refunds. The building official may authorize refunding of any fee paid herein which was erroneously paid or collected. The building official may authorize refunding of not more than 80 percent of the permit fee paid when no work has been done under a permit issued in accordance with this code. When plan review services have been provided, the plan review fee portion of the permit fee shall not be refunded. The building official shall not authorize refunding of any fee paid except on written application filed by the original permittee not later than 180 days after the date of fee payment.

3.2 Permit or application expiration. Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the building official. All work authorized by building permit shall be initiated in accordance with City-approved construction plans

within one (1) year after the date the City issued the building permit. Once initiated, work authorized by the building permit shall continue to completion without any delay or cessation of 60 days or greater. In all cases, the compliance deadlines shall be upheld unless a written extension is submitted and approved by the Building Official. An extension may only be granted in the event that a natural disaster or a calamitous event occurs which unavoidably delays the completion of the building project. The decision of the Building Official may be appealed to the Planning Commission, who acts as the Board of Adjustments and Appeals. In order to renew action on an application or permit after its expiration, the applicant shall resubmit plans and pay a new plan review fee.
